

To whom it may concern

Subject: Egypt, Abu Qir Power Plant Unit 6, 7 (2 X 650MW)

Ansaldo Caldaie S.p.A. hereby certifies that **Egypt Engineering Services, S.A.E. (EGYPTROL)** had successfully completed its obligations related to the contract awarded to EGYPTROL to conduct the mechanical equipment pre-commissioning, testing, commissioning and start-up activities up to the Owner's issuance of the Tacking Over and Acceptance Certificate (TOAC), for two 2067T/Hr dual firing (Oil/Gas) Boilers installed at Abu Qir Steam Power Plant Units 6 &7 (2X650MW) through Contract Package CP-105.

EGYPTROL staff conducted the scope through the interface with the plant DCS at the plant main control room and interface with the local Boiler equipment.
The contract was conducted on a Lump Sum basis and executed during the period from October 2011 to July 2013.

EGYPTROL performed its duties to the ultimate satisfaction to Ansaldo Caldaie S.p.A. During the contract execution, EGYPTROL technical and management teams had demonstrated high level of proficiency and deep understanding to all technical and contractual issues related to the scope of work.

We highly appreciate EGYPTROL performance and experience in power plant commissioning and we would not hesitate to recommend EGYPTROL team for similar projects wishing them all the success in future.

ANSALDO Caldaie S.p.A.
