To Whom It May Concern

Gas Natural Fenosa Engineering, S.L.U. (previously SOCOIN INGENIERÍA Y CONSTRUCCIÓN INDUSTRIAL, S.L.U.) had a Contract with the EUROPEAN INVESTMENT BANK (EIB) for "Support to the Project Implementation Unit of Deir Ali II Power Plant Project 750MW Combined Cycle 2x2x1".

This is to certify that services under the Contract corresponding to the following Key and Non-Key Experts positions were performed by experts assigned to the project by Egypt Engineering Services S.A.E. (EGYPTROL): Training Expert Coordinator, Financial & Accounting, Mechanical Eng Steam Turbine and Quality Expediting Expatriate.

The services corresponding to those positions were performed from Oct. 30, 2010 to Nov. 30, 2011.

During this period, those experts provided professional services with the following tasks:

- Plant electromechanical equipment erection supervision.
- Design review for all plant electromechanical design documents submitted by the EPC Contractor and provide comments to assure the EPC contractor fulfillment of all his contractual obligations.
- QC/QA supervision.
- Financial review and approval of EPC Contractor invoices.
- Training and Training Coordination services for Owner personnel.
- Participate in site weekly and monthly meetings with EPC Contractor.
- Participate in leading technical discussions in the design review meetings.
- Participate in preparing training inception report, time schedule
- Participate in the preparation of monthly progress reports.
